Tuesday 14 th & Thursday 16 th July 2009	15:30-16:15	Room 1	<p>Esys more than a Braille display</p> <p>School and work locations are fast changing and challenging environments for committed students and employees. Despite fast evolving technological solutions vision impaired people still mainly rely on traditional assistance or sighted persons to help with their tasks. Esys12 and 40 braille displays with integrated braille keyboard offers the opportunity to access and exchange information with mainstream computer workstations and mobile phones. By using Esys12 and Esys40 in school and at work, visually impaired persons become independent, gaining confidence and autonomy.</p> <p>Presenter Rebecka Boman - Eurobraille</p> <p>To register your place, please send an email to Register - Esys Seminar</p>
Wednesday 15 th July 2009	15:30-16:15	Room 1	<p>Esys more than a laptop</p> <p>During Sight Village 2009 euroBraille will present EsyTime and EsySchool. These devices are a small, lightweight and compact solution for students and professionals. They offer the possibility to type and read Braille documents and they also offer the possibility to access and share mainstream formats such as *.doc, *.docx and MathML. EsyTime and EsySchool can also print to ink printers or Braille embossers, connect to the Internet and produce and play music. Come and learn more about this revolutionary solutions!</p> <p>Presenter Rebecka Boman - Eurobraille</p> <p>To register your place, please send an email to Register - Esys Seminar</p>
